**Subject:** New Fire Hydrant Painting Program

Mansfield, OH—Mayor Tim Theaker is pleased to announce that a new fire hydrant painting program is being introduced as we continue our efforts to cleanup and beautify our city.

The “Plug-Hug” fire hydrant cleaning system will be introduced and demonstrated on Thursday, June 9, 2016 at 9:00 a.m. at the fire hydrant located at the corner of Main Street and Park Avenue across from Mechanics Bank. This new technology will make fire hydrants “paint ready” in two minutes.

We look forward to seeing you on June 9<sup>th</sup> to share this new technology with you.
