Subject: Middle Bellville Road Construction

Mansfield, Ohio--

The Middle Bellville Road Improvement Project is substantially complete. Middle Bellville Road is open to through traffic between Straub Road and Lexington Avenue.

Minor clean-up continues in the construction area. The phone company is finishing up the adjustment of five manholes that still have construction barrels on the pavement. Other remaining work, including a fence at the corner of Logan Road, step railings, traffic signals and signage is expected to be completed over the next few weeks.

Traffic will be maintained during the clean-up phase. Motorists should continue to use caution within the construction area.

Questions about the project may be directed to the Mansfield City Engineer's Office.
