Subject: Ohio Edison

Mansfield, OH--

Mayor Tim Theaker is announcing the Ohio Edison Company is improving electric service in the area. Much of this work is being done without interruption of the service; but at times interruption of service is not avoidable.

So that you can make arrangements ahead of time, work is scheduled to be completed at Third Street and Diamond Street beginning Saturday, June 25th, 2016 at 1:00 P.M. Electric service is expected to be restored to those affected in approximately twenty four, (24) hours.

We hope this announcement will help you to arrange your use of electric service with the least possible inconvenience.
