Subject: 2nd Log Cabin at South Park

Mansfield, OH—Mayor Tim Theaker is pleased to announce our local REACH (Richland Early American Center for History) organization with the help of volunteer labor, will be digging the foundation for the early 1800's log house that was disassembled and moved into storage on September 4, 2016. This event will take place on Sunday, October 30, 2016 beginning at 8:30 a.m. in South Park.

REACH's vision is to eventually make the Blockhouse part of a small village in South Park composed of several cabins demonstrating what it took to survive during the early days in the United States. In the near future this log house it will become part of an educational center to showcase early Richland County and American history.
